Nancy,

Thank you for your response and for sharing this information to get us started on the permit application. Laura, thanks again for the introduction. Friday July 16th from 1:30 PM onward would work for our group. Attendees from Venture Global would include:

- Jessica Wickett jwickett@venturegloballng.com
- Fory Musser fmusser@venturegloballng.com
- Bret Shapot bshapot@venturegloballng.com
- Sandra Snyder ssnyder@venturegloballng.com

We'll look out for your calendar invite. I assume teams or zoom would work for you and your team?

Thanks,

Jessica

Subject: [EXTERNAL]: RE: Louisiana Class VI - Venture Global LNG Introduction

Hi Laura and Jessica!

Thanks for introducing us Laura.

Jessica I have attached our Regional **draft** documents designed to help get interested parties up to speed on various aspects of the Class VI process. There is a section in the GSDT covering how to apply for a GSDT account, plus additional information in a number of the documents.

Lisa Pham in our region works with headquarters on primacy issues, I cover the technical (and branching) areas of Class VI.

I will be happy to set up a meeting with you to discuss any additional questions you have. Enough of our team can meet, currently between the following times, if there is an hour that works for you:

- July 14, Wed: 9 to 10, 1 to 2 or 3 to 4
- July 16, Fri: 9 to 11, 1:30 to 4

Regards,
Nancy

For Class VI applicants, EPA is a regulatory agency and not a research agency. We will not pass on any privileged or commercially valuable information. We will not suggest locations nor supply information. We will answer reasonable questions. It is up to the applicants to research, collect and model scenarios based on their own site-specific data and conditions to meet EPA regulatory standards. This does not prevent us from cautioning against certain locations which have been previously shown to be potentially unsuitable reservoirs through various investigations in other well class permitting actions. You will find many of your answers in the official Guidance documents on the EPA webpage.

Subject: Louisiana Class VI - Venture Global LNG Introduction

Hey Nancy,

I hope you're doing well and had a relaxing holiday weekend. I'm writing to introduce/connect you with Jessica Wickett, the VP of External Affairs for Venture Global LNG. Jessica and her group are looking into potential Class VI projects in Louisiana, and they were hoping to connect with you regarding questions about the GSDT as well as aspects of the federal regulatory process leading up to the granting of primacy.

The folks at IMD are always happy to join in on any future discussions where it may be helpful for us to do so.

Thanks so much,

Laura Sorey, PG
